1

**JEONSOFT BIOMETRIC DEVICES**  
built to directly send employees in and out to Jeonsoft systems, without delay nor manual intervention.

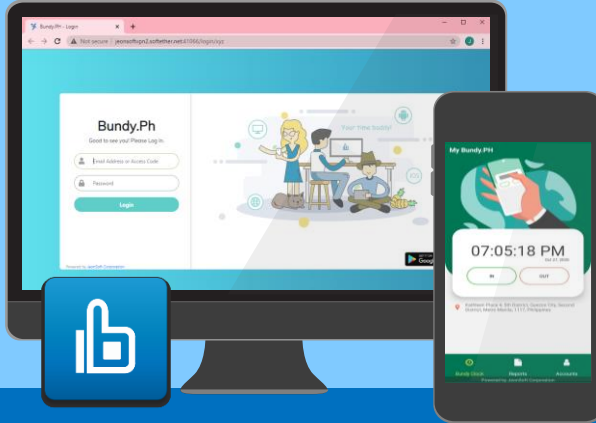

2

### BUNDY.PH

a timekeeping solution you can use in your mobile (Android, IOS), Web that captures in/out with GPS security.

- ✔ Time and Date Tracker
- ✔ GPS Location tracker
- ✔ Project tracker
- ✔ Auto-sync to Payroll Suite / Payroll.PH
- ✔ Image Selfie capture
- ✔ Geofencing

3

### EMPLOYEE SELF SERVICE

an online portal for employees to view their personal information and timekeeping and payroll related data.

They can also file for leave, official business, overtime, time logs and 201 updates. Thus, approvers can approve filings using this application.

# Timekeeping Options

*You can choose what's best for your company!*

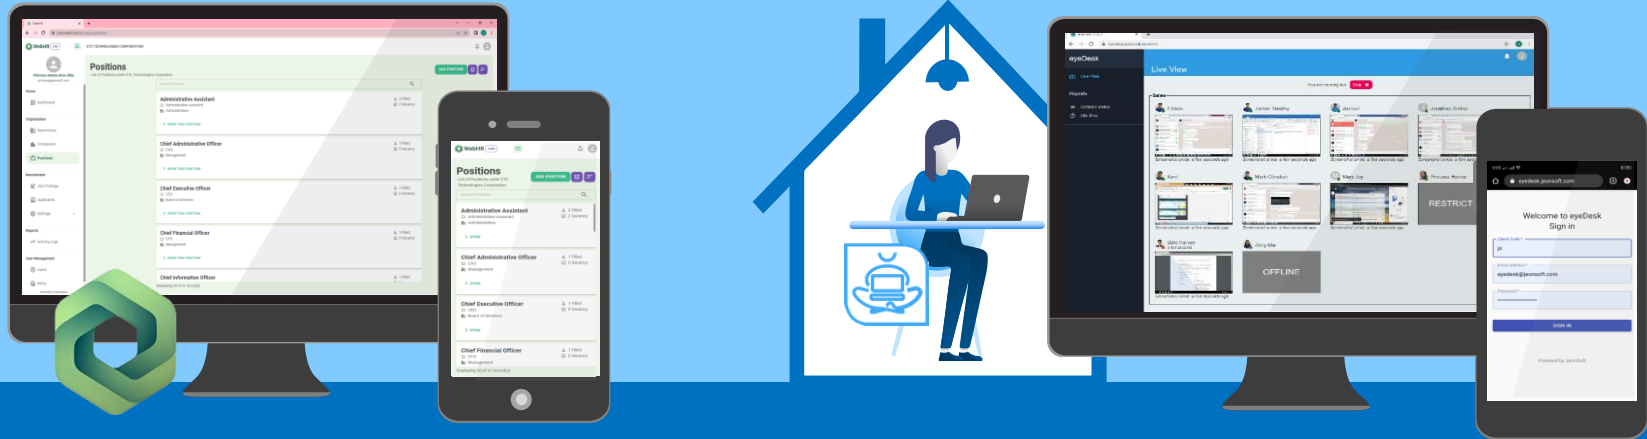

## WEB RECRUITMENT

which is a part of **Jeonsoft Web HRCM**, is a system for **recruiting** to source candidates through **job postings** and assigning for interviews as well as process the relevant paperwork required to hire and train candidates.

It is a way to provide businesses with an efficient way to fill positions.

## WORK FROM HOME AUDITOR *(Track | Capture | Generate)*

- ✓ It allows authorized users (such as the management, HR or supervisor) to **monitor employee activities remotely**: anytime, anywhere.
- ✓ It includes **screen-capture feature** which automatically takes an image of employee's screen based on configured schedule or frequency.
- ✓ **Employee Status** can be categorized as **Online**, **Offline** or **Idle** (*if no activity has been recorded by the system for a specified time*) so users can easily track employee availability and activity.
- ✓ Tracks **browser activities** and **running application**

# Recruitment and Employee Monitoring

*Hiring and Monitoring of employees made easy!*

### **PAYROLL OUTSOURCING**

Using our solution, we process end-to-end timekeeping and payroll, up to generating of necessary reports.

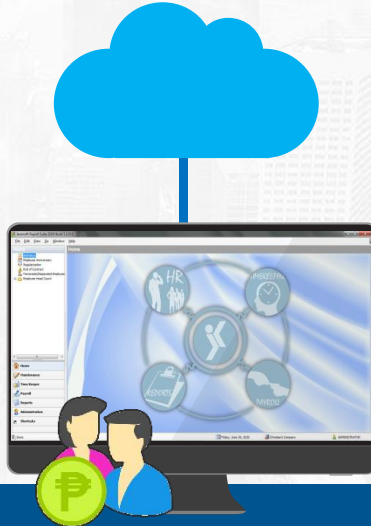

### **SERVER HOSTING**

Using our solution, we also provide cloud hosting service with license for OS, and Microsoft SQL. With daily maintenance and business continuity plan.

### **OTHERS**

Others include, integration of other systems to or from Jeonsoft system, customizations of reports & modules.

We also have ERP System and Loan Management System.

# **Other Products and Services**

*Jeonsoft offer quality services with over 24 years of experience!*

# Philippine Government Compliance

*Our solution supports all Philippine Government requirements of these agencies.*

# Project Timeline

Based on our initial assessment, below will be our timeline: **24 days**

Activity / Milestone	Duration
<b>Project Kick-off:</b> <i>project scope, statement of work, costs, project management team and project timeline are discussed and clarified to promote a well-organized and effective project implementation plan.</i>	1 day
<b>Business Requirement Documentation:</b> <i>gathering and documenting the client's policies, salary computations, schedules and other setup related to the project.</i>	1 day
<b>Software Installation:</b> <i>installation of the system and/or setting up the client's login credentials to access the system.</i>	4 days
<b>Data Migration and System Setup:</b> <i>involves two activities as indicated below:</i> <i>1. Migrating the client's Relevant Data to the system. For purposes of this section, Relevant Data shall mean employees 201 data, timekeeping records and other related information which are needed to perform Test Run and proceed with Go-Live.</i> <i>2. Configuring the system to match client's requirements as indicated in Business Requirement Document ("BRD")</i>	6 days
<b>User Training:</b> <i>training system users on different modules, functions and features of the system. In all cases, training shall be on a train-the-trainer basis.</i>	4 days
<b>Test Run:</b> <i>involves conducting payroll test run for two (2) previous payroll periods using the system to evaluate whether the system produces output that are consistent with client's requirements as identified in BRD.</i>	5 days
<b>Go-live:</b> <i>milestone in which the system's timekeeping or payroll module is used to process time-attendance or payroll entries for one (1) payroll period for and by the client or any of its subsidiary(ies).</i>	2 days
<b>Project Completion:</b> <i>signifies that all deliverables under Software Agreement ("Agreement") are implemented and delivered in accordance with terms of Agreement.</i>	1 day
